UPS Delivers Record 4Q Results

Company Achieves New High in Full Year EPS; U.S. Domestic Segment Leads the Way

ATLANTA--(BUSINESS WIRE)-- UPS (NYSE:UPS) today announced fourth quarter 2011 adjusted diluted earnings per share of \$1.28, a 21% improvement over the prior-year period. Total revenue increased 6% to \$14.2 billion and adjusted operating profit climbed 17% to more than \$2 billion.

Last Friday, the company announced a change in pension accounting to a mark-to-market methodology. Adopted in the fourth quarter of 2011 and applied retrospectively, this new method resulted in after-tax charges in 2011 and 2010 of \$527 million and \$75 million, respectively. Also, in the prior-year period, UPS recorded a net after-tax gain of \$32 million from the sale of certain non-core business units in the Supply Chain and Freight segment. On a reported basis, fourth quarter 2011 diluted earnings per share were \$0.74, a decline of 28% from the same quarter last year.

For the full year 2011, UPS achieved a new high in adjusted diluted earnings per share at \$4.35. On a reported basis, diluted earnings per share were \$3.84.

"UPS delivered record fourth quarter results in volume, revenue and profitability," said Scott Davis, UPS chairman and CEO. "In short, the quarter was a testament to the power of UPS's global model and the company's ability to operate efficiently in evolving markets."

<u>Consolidated Results</u>	<u>4Q 2011</u>	<u>Adjusted 4Q 2011</u>	<u>4Q 2010</u>	<u>Adjusted 4Q 2010</u>
Revenue	\$14.17B		\$13.42B	
Operating profit	\$1.20B	\$2.02B	\$1.67B	\$1.73B
Operating margin	8.4%	14.3%	12.5%	12.9%
Average volume per day	18.3M		17.7M	
Diluted earnings per share	\$ 0.74	\$ 1.28	\$ 1.02	\$ 1.06

During the quarter, UPS delivered 1.13 billion packages, an increase of 3.6% over the prior-year period. Adjusted operating margin expanded 140 basis points to 14.3%. On a reported basis, operating margin was 8.4%.

The impact of the change in pension accounting to a mark-to-market methodology improved fourth quarter 2011 adjusted results by \$0.03 and reduced fourth quarter adjusted 2010 results by \$0.02.

During the holiday period, global daily volume exceeded expectations by surpassing 25 million packages on five different days, including two days exceeding 27 million. UPS delivered 480 million packages during the peak shipping season, driven by e-commerce.

Cash Position

For the year ending Dec. 31, UPS generated more than \$5 billion in free cash flow after capital expenditures of \$2 billion and pension contributions of \$1.4 billion. UPS repurchased 38.7 million shares for approximately \$2.7 billion and paid dividends totaling \$2.0 billion, up 10.6% per share.

<u>U.S. Domestic Package</u>	<u>4Q 2011</u>	<u>Adjusted 4Q 2011</u>	<u>4Q 2010</u>	<u>Adjusted 4Q 2010</u>
Revenue	\$8.67B		\$8.08B	
Operating profit	\$0.84B	\$1.32B	\$0.99B	\$1.02B
Operating margin	9.7%	15.2%	12.2%	12.6%
Average volume per day	15.69M		15.12M	

Revenue climbed 7.3% and adjusted operating profit improved 30% over the 2010 fourth quarter results. Operating margin expanded 260 basis points to 15.2% due to a volume surge during peak season of more than 7% and network efficiencies.

On a reported basis, operating profit declined to \$.84 billion and operating margin was 9.7% as a result of the mark-to-market adjustment for pension plans.

For the quarter, average daily volume was up 3.8% fueled by robust internet shopping activity. Ground products grew 3.5% and Deferred by 12.3%, while UPS Next Day Air® declined slightly. Revenue per piece increased 3.4% with higher base rates and fuel surcharges, offset by lower average package weight and changes in customer and product mix.

UPS My Choicesm, the company's new consumer-based delivery solution, experienced strong acceptance during the quarter. Enrollment for this industry-first service offering exceeded expectations and is approaching 750,000 subscribers.

<u>International Package</u>	<u>4Q 2011</u>	<u>Adjusted 4Q 2011</u>	<u>4Q 2010</u>	<u>Adjusted 4Q 2010</u>
-------------------------------------	-----------------------	------------------------------------	-----------------------	------------------------------------

Revenue	\$ 3.15B		\$ 3.05B	
Operating profit	\$ 334M	\$ 505M	\$ 487M	\$ 529M
Operating margin	10.6%	16.0%	16.0%	17.4%
Average volume per day	2.60M		2.54M	

International revenue was \$3.15 billion, up 3.5%. Export volume, for the quarter, improved 4.5%, surpassing 1 million pieces on an average daily basis for the first time in UPS history. This was driven by European exports and strong intra-regional growth in Asia.

Revenue per piece increased 2%, on a currency-neutral basis the gain was 3.9%. Adjusted operating margin in the quarter was once again industry leading at 16.0%, down 140 basis points compared to the same period last year. The weakness on the Asia to U.S. trade lane and currency fluctuations were the primary drivers of the margin decline.

On a reported basis, operating profit was \$334 million with an operating margin of 10.6% as a result of the mark-to-market adjustment for pension plans.

Early in the quarter, UPS introduced two new return services to 30 countries across Europe. UPS Returns® Exchange and UPS Returns Pack® and Collect products offer unique reverse logistics solutions to European on-line retailers.

Supply Chain & Freight	Adjusted		Adjusted	
	4Q 2011	4Q 2011	4Q 2010	4Q 2010
Revenue	\$2.34B		\$2.29B	
Operating profit	\$ 22M	\$ 199M	\$ 199M	\$ 180M
Operating margin	0.9%	8.5%	8.7%	7.8%

Compared to the prior-year period, adjusted operating profit for the fourth quarter grew 11% to \$199 million on revenue growth of 2.1%. The adjusted operating margin for the segment increased 70 basis points to 8.5%.

On a reported basis, operating profit declined to \$22 million and operating margin was 0.9% primarily as a result of the mark-to-market adjustment for pension plans.

UPS Freight led the segment with revenue growth of 9.0% on slightly lower daily shipments. Strong gains in LTL revenue per hundredweight, up 8.9% and productivity improvements contributed to operating margin expansion during the quarter.

Distribution experienced margin expansion and increased operating profitability as the business unit continued executing on its global strategy.

During the quarter, UPS acquired Piefte Group, an Italian pharmaceutical logistics company. This acquisition further supports UPS's global healthcare strategy.

Outlook

“UPS achieved record earnings per share in a volatile global operating environment where trends varied by region,” said Kurt Kuehn, UPS’s chief financial officer. “This was made possible by our balanced world-wide presence, broad portfolio of solutions and the best people in the business.

“Looking to 2012, our expectations are for mixed economic growth around the world, with modest improvement in the U.S. However, UPS projects another strong year of earnings,” he continued. “We expect diluted earnings per share to be within a range of \$4.75 to \$5.00, an increase of 9% to 15% over adjusted 2011 results.

“Cash flow will remain strong, providing a platform for significant distributions to shareowners,” Kuehn added. “In line with this, UPS anticipates \$2.7 billion in share repurchases for the year.”

UPS (NYSE:UPS) is a global leader in logistics, offering a broad range of solutions including the transportation of packages and freight; the facilitation of international trade, and the deployment of advanced technology to more efficiently manage the world of business. Headquartered in Atlanta, UPS serves more than 220 countries and territories worldwide. The company can be found on the Web at UPS.com and its corporate blog can be found at blog.ups.com. To get UPS news direct, visit pressroom.ups.com/RSS.

EDITOR’S NOTE:

UPS Chairman and CEO Scott Davis and CFO Kurt Kuehn will discuss fourth quarter results with investors and analysts during a conference call at 8:30 a.m. EST today. That call is open to listeners through a live Webcast. To access the call, go to www.investors.ups.com and click on “Earnings Webcast.”

UPS routinely posts investor announcements on its web site -- www.investors.ups.com -- and encourages those interested in the company to check there frequently.

We supplement the reporting of our financial information determined under generally accepted accounting principles (“GAAP”) with certain non-GAAP financial measures, including, as applicable, “as adjusted” operating profit, operating margin, pre-tax income, net income and earnings per share. The equivalent measures determined in accordance with GAAP are also referred to as “reported” or “unadjusted”. We believe that these adjusted measures provide meaningful information to assist investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. Furthermore, we use these adjusted financial measures to determine awards for our management personnel under our incentive compensation plans.

We supplemented the presentation of our fourth quarter and year-to-date 2011 and 2010 operating profit, operating margin, pre-tax income, net income and earnings per share with similar measures that excluded the impact of several items. During 2011, these items included the impact of certain real estate transactions (\$33 million pre-tax gains) and mark-to-market adjustments for pension expense recognized outside of a 10% corridor (\$827 million pre-tax loss). In 2010, these items included the impact of a restructuring charge in our

U.S. Domestic Package operations (\$98 million pre-tax charge), the sale of a specialized transportation business in Germany and a related fair value adjustment loss for a financial guarantee (\$51 million pre-tax losses), a charge to income tax expense due to the change in the filing status of a German subsidiary (\$76 million), the sale of certain real estate (\$109 million pre-tax gain), mark-to-market adjustments for pension expense recognized outside of a 10% corridor (\$112 million pre-tax loss), and the sale of UPS Logistics Technologies (\$71 million pre-tax gain). Additionally, we presented our fourth quarter and year-to-date 2011 and 2010 financial results excluding the impact of the accounting methodology change associated with our pension and postretirement medical benefit plans. We believe this presentation is appropriate as these adjusted measures better enable shareowners to focus on period-over-period operating performance.

Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. These adjusted financial measures should not be considered in isolation or as a substitute for GAAP operating profit, operating margin, pre-tax income, net income and earnings per share, the most directly comparable GAAP financial measures. These non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the preceding reconciliations to corresponding GAAP financial measures, provide a more complete understanding of our business. We strongly encourage investors to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.

(1) 2011 and 2010 compensation and benefits expense increased by \$780 million and \$142 million, respectively, due to a \$827 million (\$112 million in 2010) increase in pension expense due to a mark-to-market loss recognized outside of a 10% corridor, and a \$47 million reduction (\$30 million increase in 2010) in ongoing pension expense resulting from the change in pension accounting methodology.

(2) 2011 and 2010 operating profit decreased by \$780 million and \$142 million, respectively, as described in (1) above and was allocated across all segments.

(3) 2011 and 2010 net income and earnings per share amounts decreased due to the after-tax effect of the additional \$780 million and \$142 million, respectively, of compensation and benefits expense described in (1) above.

(4) 2011 and 2010 operating profit and income before taxes increased by \$47 million and decreased by \$30 million, respectively, due to the adjustment for ongoing pension expense resulting from the change in pension accounting methodology.

(5) 2011 and 2010 net income and earnings per share amounts increased due to the after tax effect of (4) above.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Diluted earnings per share (2)	\$ 4.35	\$ 3.48	\$ 0.87	25.0%

(1) 2011 operating profit and consolidated income before income taxes exclude an \$827 million increase in pension expense due to a mark-to-market loss recognized outside of a 10% corridor (\$479 million U.S. Domestic Package, \$171 million International Package, \$177 million Supply Chain & Freight), and the \$33 million gain on certain real estate transactions (\$15 million loss in U.S. Domestic Package and a \$48 million gain in Supply Chain & Freight).

2010 operating profit and consolidated income before income taxes exclude an \$112 million increase in pension expense due to a mark-to-market loss recognized outside of a 10% corridor (\$31 million U.S. Domestic Package, \$42 million International Package, \$39 million Supply Chain & Freight), a \$98 million restructuring charge (U.S. Domestic Package), a \$109 million gain on the sale of real estate (U.S. Domestic Package), a \$71 million gain on the sale of UPS Logistics Technologies (Supply Chain & Freight) and a \$51 million loss on the sale of a specialized transportation business in Germany and a related financial guarantee fair value adjustment (Supply Chain & Freight).

(2) 2011 and 2010 net income and earnings per share amounts exclude the after-tax impact of the adjustments described in (1), which totaled a combined decrease of \$507 million and \$81 million, respectively. Additionally, 2010 net income and earnings per share exclude a \$76 million charge to income tax expense, resulting from a change in the tax filing status of a German subsidiary.

Certain prior year amounts have been reclassified to conform to the current year presentation.

(1) 2011 and 2010 compensation and benefits expense increased by \$640 million and \$233 million, respectively, due to a \$827 million (\$112 million in 2010) increase in pension expense due to a mark-to-market loss recognized outside of a 10% corridor, and a \$187 million reduction (\$121 million increase in 2010) in ongoing pension expense resulting from the change in pension accounting methodology.

(2) 2011 and 2010 operating profit decreased by \$640 million and \$233 million, respectively, as described in (1) above and was allocated across all segments.

(3) 2011 and 2010 net income and earnings per share amounts decreased due to the after-tax effect of the additional \$640 million and \$233 million, respectively, of compensation and benefits expense described in (1) above.

(4) 2011 and 2010 operating profit and income before taxes increased by \$187 million and decreased by \$121 million, respectively, due to the adjustment for ongoing pension expense resulting from the change in pension accounting methodology.

(5) 2011 and 2010 net income and earnings per share amounts increased due to the after-tax effect of (4) above.

Certain prior year amounts have been reclassified to conform to the current year presentation.
