## Weather Impacts UPS 1Q Results

- *U.S. Domestic Daily Volume Increases 4.2%*
- *International Operating Profit Climbs 12%*
- *International Daily Volume Jumps 7.9% on Strong Europe Growth*
- *E-commerce Drives Robust Demand in the U.S. for Lightweight Solutions*
- *Generates Free Cash Flow of \$1.9 Billion*

ATLANTA--(BUSINESS WIRE)-- UPS (NYSE:UPS) today released first quarter 2014 results. Diluted earnings per share totaled \$0.98, a \$0.06 decline from first quarter 2013 adjusted results. Operating profit for the quarter was \$1.5 billion, down \$106 million from the prior-year's adjusted results. Unusually harsh weather weighed on operating profit by approximately \$200 million, due to increased expenses and slower revenue growth. Average daily shipments in the U.S. climbed 4.2% driven primarily by large e-commerce shippers using lightweight deferred shipping solutions.

The International segment operating margin expanded to 14.0% on daily volume growth of 7.9%. Supply Chain and Freight experienced improved operating profit and margin expansion.

For the first quarter of 2013, UPS reported diluted earnings per share of \$1.08, which includes \$36 million in after-tax gains related to the attempted acquisition of TNT.

"Much of the U.S. economy was negatively affected by the severe weather conditions in the first quarter, resulting in lower UPS operating results versus the prior year," said Scott Davis, UPS chairman and CEO. "International and the Supply Chain and Freight segment benefitted from positive momentum during the quarter as customers utilized the strategic investments made by UPS to strengthen our portfolio."

### **Cash Flow**

For the three months ended March 31, UPS generated \$1.9 billion in free cash flow. The company paid dividends of \$596 million, up 8.1% per share over the prior year, and repurchased 6.8 million shares for approximately \$660 million.

## **U.S. Domestic Package**

U.S. Domestic revenue increased 2.6% over the prior-year period, to \$8.5 billion. Daily volume improved 4.2%, led by UPS SurePost and UPS Second Day Air.

The segment generated \$927 million in operating profit, down \$158 million compared to the prior year, due to the impact of severe winter weather. The company experienced lost revenue and additional cost as a result of significant network disruptions on more than half of the operating days during the quarter. Overtime wages, purchased transportation and snow removal costs increased substantially over the prior year. Operating margin contracted 220 basis points to 10.9%.

Revenue per package declined 1.5% from the previous year due to changes in customer and product mix, as well as lower fuel surcharges. Product mix continues to be impacted by the rapid increase of UPS SurePost. More e-commerce retailers are choosing this product to serve their value-conscious customers.

## **International Package**

The International segment revenue improved 5.0% and produced operating profit of \$438 million, 12% more than the prior-year adjusted results. Operating margin expanded to 14% driven by improved network efficiency and in-country leverage.

On a reported basis, the segment recorded operating profit growth of 24% more than the prior-year result of \$352 million. This reflects the operating profit impact of a \$39 million net charge in 2013, related to the attempted acquisition of TNT.

Export shipments climbed 7.7% driven by 15% growth in Europe and modest gains in Asia and the Americas. Transborder shipments in Europe continue to expand rapidly as customers migrate to Pan-European distribution using UPS solutions.

To support strong Intra-European growth and intercontinental trade, the company announced the completed expansion of its Cologne, Germany, air hub. This \$200 million investment increased facility capacity by 70%.

Non-U.S. Domestic deliveries increased 8.1%, driven by growth in Europe and Canada. Poland led the European countries with more than 20% growth, while Germany and the U.K. contributed strong gains.

Average revenue per package declined 2.1% due to product mix changes as non-premium Export products jumped almost 13%, overshadowing improved growth in premium products.

## **Supply Chain & Freight**

Supply Chain and Freight operating profit increased 3.5% to \$148 million. Operating margin expanded 30 basis points to 6.8%, driven by gains in the Forwarding and Distribution units.

The Forwarding business delivered improved operating profit and margin gains during the quarter as the unit adapted to market changes. International Air Freight growth in shipments and tonnage were offset by lower revenue per pound. Ocean Freight and Brokerage showed both improved revenue and operating profit.

Gains from retail and healthcare customers drove higher revenue growth in the Distribution business unit. Operating profit improved more than 10% despite additional expansion costs during the quarter.

UPS Freight revenue increased slightly on a 3.1% increase in LTL revenue per hundredweight. Both tonnage and operating profit were negatively impacted by the severe winter weather.

## **Outlook**

“During the quarter, the momentum of the underlying business was masked by the disruption of inclement weather,” said Kurt Kuehn, UPS chief financial officer. “We are encouraged by the positive trends in our business and expect the remainder of the year to perform as we originally guided. However, due to the challenging start to 2014, we anticipate diluted earnings per share to be at the low end of our full-year guidance range of \$5.05 to \$5.30.”

## **About UPS**

UPS (NYSE:UPS) is a global leader in logistics, offering a broad range of solutions including the transportation of packages and freight; the facilitation of international trade, and the deployment of advanced technology to more efficiently manage the world of business. Headquartered in Atlanta, UPS serves more than 220 countries and territories worldwide. The company can be found on the Web at UPS.com and its corporate blog can be found at [blog.ups.com](http://blog.ups.com). ## **Editor's Note:**

UPS chairman and CEO Scott Davis and CFO Kurt Kuehn will lead a discussion on first quarter results with investors and analysts during a conference call at 8:30 a.m. ET today. That call is open to listeners through a live Webcast. To access the call, go to [www.investors.ups.com](http://www.investors.ups.com) and click on “Earnings Webcast.”

UPS routinely posts investor announcements on its web site -- [www.investors.ups.com](http://www.investors.ups.com) -- and encourages those interested in the company to check there frequently.

We supplement the reporting of our financial information determined under generally accepted accounting principles ("GAAP") with certain non-GAAP financial measures, including, as applicable, "as adjusted" operating profit, operating margin, pre-tax income, net income and earnings per share. The equivalent measures determined in accordance with GAAP are also referred to as "reported" or "unadjusted." We believe that these adjusted measures provide meaningful information to assist investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to, our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. Furthermore, we use these adjusted financial measures to determine awards for our management personnel under our incentive compensation plans.

We supplemented the presentation of our first quarter 2013 operating profit, operating margin, pre-tax income, net income and earnings per share with similar measures that

excluded the impact of certain transactions. In the first quarter of 2013, we recorded transactions related to our attempted acquisition of TNT Express N.V. These items included the impact of (1) a pre-tax charge for the TNT termination fee and transaction-related costs of \$284 million (\$177 million after-tax), and (2) a pre-tax currency gain realized upon the liquidation of a foreign subsidiary of \$245 million (\$213 million after-tax). We believe these adjusted measures better enable shareowners to focus on period-over-period operating performance.

Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. These adjusted financial measures should not be considered in isolation or as a substitute for GAAP operating profit, operating margin, net income and earnings per share, the most directly comparable GAAP financial measures. These non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the preceding reconciliations to corresponding GAAP financial measures, provide a more complete understanding of our business. We strongly encourage investors to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.

---

**As adjusted income data:**

Operating profit:				
U.S. Domestic Package	\$ 927	\$ 1,085	\$ (158)	-14.6%
International Package (1)	438	391	47	12.0%
Supply Chain & Freight	148	143	5	3.5%
Total operating profit (1)	1,513	1,619	(106)	-6.5%
Income before income taxes (1)	\$ 1,423	\$ 1,528	\$ (105)	-6.9%
Net income (2)	\$ 911	\$ 1,001	\$ (90)	-9.0%
Basic earnings per share (2)	\$ 0.99	\$ 1.05	\$(0.06)	-5.7%
Diluted earnings per share (2)	\$ 0.98	\$ 1.04	\$(0.06)	-5.8%

(1) 2013 operating profit and consolidated income before income taxes exclude the impact of the TNT termination penalty of €200 million (\$268 million) and transaction-related expenses of \$16 million. The combination of these items resulted in a pre-tax charge of \$284 million (\$177 million after-tax). Subsequent to the termination of the merger protocol, we liquidated a foreign subsidiary resulting in a realized foreign currency gain of \$245 million (\$213 million after-tax). Both transactions impacted the International Package segment.

(2) 2013 net income and earnings per share amounts excluded the after-tax impact of the International Package segment transactions described in (1), which total a combined \$36 million after-tax gain.
