RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratio of earnings to fixed charges for our company, including our subsidiaries, on a consolidated basis.

	Year Ended December 31,					Nine Months Ended September 30,	
	1997	1998	1999	2000	2001	2001	2002
Ratio of earnings to fixed charges	4.9	8.9	6.7	15.3	11.2	12.4	12.2

For purposes of calculating the ratio of earnings to fixed charges, earnings is defined as income before income taxes and fixed charges (excluding capitalized interest). Fixed charges include interest (whether capitalized or expensed), amortization of debt expense and any discount or premium relating to any indebtedness (whether capitalized or expensed) and the portion of rent expense considered to represent interest.

DESCRIPTION OF THE NOTES

The following description of the terms of the notes supplements the general terms and provisions of the debt securities contained in the accompanying prospectus. If there are any inconsistencies between the information in this section and the information in the prospectus, the information in this section controls.

General

The notes will be our general unsecured and senior obligations issued in an initial aggregate principal amount of \$100,000,000. We will issue the notes under the indenture (as defined below). You should read the accompanying prospectus for a general discussion of the terms and provisions of the indenture.

We may, without the consent of the holders of the notes, issue additional notes from the series of notes offered by this prospectus supplement. Any additional notes will have the same ranking, interest rate, maturity date and other terms as the notes offered by this prospectus supplement. Any additional notes, together with the notes offered by this prospectus supplement, will constitute a single series of debt securities under the indenture.

The notes:

- will mature on February 28, 2053;
- will not be entitled to any sinking fund;
- will be subject to defeasance and covenant defeasance;
- will be issued only in registered, book-entry form, in denominations of \$1,000 and any integral multiple thereof; and
- will be repayable at the option of the holders and redeemable at our option prior to maturity on the terms and conditions described below.

When we refer to the indenture, we are referring to the indenture dated as of January 26, 1999, as supplemented by the First Supplemental Indenture thereto, dated as of March 27, 2000, as further supplemented by the Second Supplemental Indenture thereto, dated as of September 21, 2001, under which we will issue the notes. The indenture does not, and the notes will not, limit the amount of indebtedness that we (or our subsidiaries) may incur or issue, and do not contain any financial or similar restrictions on us, except as described in the prospectus under the caption “Description of Debt Securities — Covenants.”

If any redemption date, repayment date or maturity date is not a business day, then the applicable payment will be made on the first following business day, but no additional interest will accrue on the notes that are to be redeemed or repaid for the period from the scheduled redemption, repayment or maturity date, as the case may be, to the first following business day.

Interest

The notes will bear interest at the “1 Month LIBOR Rate” (as defined below) less 0.45%. Interest will accrue from February 28, 2003 and is payable quarterly in arrears on February 28, May 28, August 28, and November 28 of each year (these dates are called “interest payment dates”), beginning on May 28, 2003; *provided that* if any interest payment date (other than an interest payment date with respect to any notes that falls on a redemption date, repayment date or the maturity date) is not a business day, then the interest payment date will be postponed until the first following business day, unless that business day is in the next succeeding calendar month, in which case the interest payment date will be the immediately preceding business day. The 1 Month LIBOR Rate will be set on February 28, 2003 and reset monthly on the 28th day of every month thereafter (each such date, including February 28, 2003, is called an “interest reset date”). If an interest reset date falls on a date that is not a business day, then the interest reset date will be postponed until the first following business day, unless that business day is in the next succeeding calendar month, in which case the interest reset date will be the immediately preceding business day. Interest will accrue from the date of issue of the notes or from the most recent date to which interest on such note has been paid or duly provided for, until the principal amount of the note is paid or duly made available for payment. We will pay interest to the person in whose name the note (or one or more predecessor notes) is registered at the close of business 15 calendar days before the interest payment date.

As used in this prospectus supplement, business day means, with respect to any note, any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which commercial banks are authorized or required by law, regulation or executive order to close in The City of New York.

“1 Month LIBOR Rate” means the rate for deposits in U.S. dollars for the one-month period which appears on “Telerate Page 3750” at approximately 11:00 a.m., London time, on the second London banking day prior to the applicable interest reset date. If this rate does not appear on the Telerate Page 3750, the calculation agent will determine the rate on the basis of the rates at which deposits in U.S. dollars are offered by four major banks in the London interbank market (selected by the calculation agent) at approximately 11:00 a.m., London time, on the second London banking day prior to the applicable interest reset date to prime banks in the London interbank market for a period of one month

commencing on that interest reset date and in a principal amount equal to an amount not less than \$1,000,000 that is representative for a single transaction in such market at such time. In such case, the calculation agent will request the principal London office of each of the aforesaid major banks to provide a quotation of such rate. If at least two such quotations are provided, the rate for that interest reset date will be the arithmetic mean of the quotations, and, if fewer than two quotations are provided as requested, the rate for that interest reset date will be the arithmetic mean of the rates quoted by major banks in The City of New York, selected by the calculation agent, at approximately 11:00 a.m., New York City time, on the second London banking day prior to the applicable interest reset date for loans in U.S. dollars to leading European banks for a period of one month commencing on that interest reset date and in a principal amount equal to an amount not less than \$1,000,000 that is representative for a single transaction in such market at such time. A London banking day is any day in which dealings in U.S. dollars are transacted in the London interbank market.

“Telerate Page 3750” means the display page so designated on Moneyline Telerate (or such other page as may replace such page on that service for the purpose of displaying London interbank offered rates of major banks). The interest rate on the notes will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States law of general application.

The calculation agent will, upon the request of the holder of any note, provide the interest rate then in effect. The calculation agent is Citibank, N.A. until such time as we appoint a successor calculation agent. All calculations made by the calculation agent in the absence of manifest error shall be conclusive for all purposes and binding on us and the holders of the notes. We may appoint a successor calculation agent with the written consent of the trustee.

All percentages resulting from any calculation of the interest rate with respect to the notes will be rounded, if necessary, to the nearest one-hundred thousandth of a percentage point, with five one-millionths of a percentage point rounded upwards (e.g., 9.876545% (or .09876545) being rounded to 9.87655% (or .0987655) and 9.876544% (or .09876544) being rounded to 9.87654% (or .0987654)), and all dollar amounts in or resulting from any such calculation will be rounded to the nearest cent (with one-half cent being rounded upwards).

Interest on the notes will be computed and paid on the basis of a 360-day year and the actual number of days in each quarterly interest payment period.

Optional Redemption

The notes may be redeemed at any time on or after February 28, 2033, at our option, in whole or in part, in amounts of \$1,000 or an integral multiple thereof at the following redemption prices (in each case expressed as a percentage of the principal amount), if redeemed during the 12-month period beginning on February 28 of any of the following years:

Year	Redemption Price
2033	105.0%
2034	104.5%
2035	104.0%
2036	103.5%
2037	103.0%
2038	102.5%
2039	102.0%
2040	101.5%
2041	101.0%
2042	100.5%
2043 and thereafter to maturity	100.0%

in each case, together with accrued and unpaid interest, if any, to the redemption date (subject to the rights of holders of record on relevant record dates to receive interest due on an interest payment date).

We must mail notice of any redemption at least 30 days but not more than 60 days before the redemption date to each holder of notes to be redeemed. Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or portions thereof called for redemption.

In the event of any redemption of less than all the outstanding notes, the particular notes (or portions thereof in integral multiples of \$1,000) to be redeemed shall be selected by the trustee by such method as the trustee considers fair and appropriate.

Repayment at Option of Holder

The notes will be repayable at the option of the holder thereof, in whole or in part, on the repayment dates and at the repayment prices (in each case expressed as a percentage of the principal amount) set forth in the following table:

Date	Repayment Price
February 28, 2004	98%
February 28, 2005	98%
February 28, 2006	98%
February 28, 2007	98%
February 28, 2008	98%
February 28, 2009	99%
February 28, 2010	99%
February 28, 2011	99%
February 28, 2012	99%
February 28, 2013	99%

and on February 28, 2014 and on every third year thereafter to maturity at 100% of the principal amount, in each case together with accrued and unpaid interest, if any, to the repayment date (subject to the rights of holders of record on relevant record dates to receive interest due on an interest payment date).

In order for a note to be repaid, the paying agent must receive, at least 30 but not more than 60 calendar days prior to the optional repayment date, (1) the note with the form entitled "Option to Elect Repayment" on the reverse of the note duly completed or (2) a telegram, facsimile transmission or a letter from a member of a national securities exchange or a member of the National Association of Securities Dealers, Inc. or a commercial bank or trust company in the United States which must set forth:

- the name of the holder of the note;
- the principal amount of the note;
- principal amount of the note to be repaid;
- the certificate number or a description of the tenor and terms of the note;
- a statement that the option to elect repayment is being exercised thereby; and
- a guarantee that the note to be repaid will be transferred to the DTC account of the paying agent not later than the fifth business day after the date of such telegram, facsimile transmission or letter.

The repayment option may be exercised by the holder of a note for less than the entire principal amount of the note but, in that event, the principal amount of the note remaining outstanding after repayment must be in an authorized denomination.

Conditional Right to Shorten Maturity

We intend to deduct interest paid on the notes for United States Federal income tax purposes. However, there have been proposed tax law changes over the past several years that, among other things, would have prohibited an issuer from deducting interest payments on debt instruments with a maturity of

more than 40 years. While none of these proposals has become law, there can be no assurance that similar legislation affecting our ability to deduct interest paid on the notes will not be enacted in the future or that any such legislation would not have a retroactive effective date. As a result, there can be no assurance that a Tax Event (as defined below) will not occur.

Upon the occurrence of a Tax Event, we, without the consent of the holders of the notes, will have the right to shorten the maturity of the notes to the minimum extent required, in the opinion of nationally recognized independent tax counsel, such that, after the shortening of the maturity, interest paid on the notes will be deductible for United States Federal income tax purposes or, if such counsel is unable to opine definitively as to such a minimum period, the minimum extent so required to maintain the Company's interest deduction to the extent deductible under current law as determined in good faith by our Board of Directors, after receipt of an opinion of such counsel regarding the applicable legal standards. In such case, the amount payable on such notes on such new maturity date will be equal to 100% of the principal amount of such notes plus interest accrued on such notes to the date such notes mature on such new maturity date. There can be no assurance that we would not exercise our right to shorten the maturity of the notes on the occurrence of such a Tax Event or as to the period by which such maturity would be shortened. In the event that we elect to exercise our right to shorten the maturity of the notes on the occurrence of a Tax Event, we will mail a notice to each holder of notes by first-class mail not more than 60 days after the occurrence of such Tax Event, stating the new maturity date of the notes. Such notice shall be effective immediately upon mailing.

We believe that the notes should constitute indebtedness for United States Federal income tax purposes under current law and, in that case, an exercise of our right to shorten the maturity of the notes should not be a taxable event to holders for such purposes. Prospective investors should be aware, however, that our exercise of our right to shorten the maturity of the notes will be a taxable event to holders for United States Federal income tax purposes if the notes are treated as equity for United States Federal income tax purposes before the maturity is shortened, assuming that the notes of shortened maturity are treated as debt for such purposes.

"Tax Event" means that we shall have received an opinion of a nationally recognized independent tax counsel to the effect that, as a result of one of the following events occurring on or after February 28, 2003, there is more than an insubstantial increase in the risk that interest paid by us on the notes is not, or will not be, deductible, in whole or in part, by us for United States Federal income tax purposes:

- any amendment to, clarification of, or change (including any announced prospective amendment, clarification or change) in any law, or any regulation thereunder, of the United States,
- any judicial decision, official administrative pronouncement, ruling, regulatory procedure, regulation, notice or announcement, including any notice or announcement of intent to adopt or promulgate any ruling, regulatory procedure or regulation (any of the foregoing, an "Administrative or Judicial Action"), or
- any amendment to, clarification of, or change in any official position with respect to, or any interpretation of, an Administrative or Judicial Action or a law or regulation of the United States that differs from the theretofore generally accepted position or interpretation.

Notes Used as Qualified Replacement Property

Prospective investors seeking to treat the notes as "qualified replacement property" for purposes of section 1042 of the Internal Revenue Code of 1986, as amended (the "Code"), should be aware that section 1042 requires the issuer to meet certain requirements in order for the notes to constitute qualified replacement property. In general, qualified replacement property is a security issued by a domestic corporation that did not, for the taxable year preceding the taxable year in which such security was purchased, have "passive investment income" in excess of 25 percent of the gross receipts of such corporation for such preceding taxable year (the "passive income test"). For purposes of the passive income test, where the issuing corporation is in control of one or more corporations, all such corporations

are treated as one corporation (the “affiliated group”) for the purposes of computing the amount of passive investment income for purposes of section 1042.

We believe that less than 25 percent of our affiliated group’s gross receipts is passive investment income for the taxable year ended December 31, 2002. In making this determination, we have made certain assumptions and used procedures which we believe are reasonable. We cannot give any assurance as to whether we will continue to meet the passive income test. It is, in addition, possible that the IRS may disagree with the manner in which we have calculated our affiliated group’s gross receipts (including the characterization thereof) and passive investment income and the conclusions reached herein. Prospective purchasers of the notes should consult with their own tax advisors with respect to these and other tax matters relating to the notes.

The notes are a new issue of securities with no established trading market. No assurance can be given as to whether a trading market for the notes will develop or as to the liquidity of a trading market for the notes. The availability and liquidity of a trading market for the notes will also be affected by the degree to which purchasers treat the notes as qualified replacement property.

BOOK-ENTRY SYSTEM

We have obtained the information in this section concerning The Depository Trust Company (“DTC”) and its book-entry system and procedures from sources that we believe to be reliable, but we take no responsibility for the accuracy of this information.

The notes initially will be represented by one or more fully registered global notes. Each global note will be deposited with, or on behalf of, DTC or any successor thereto and registered in the name of Cede & Co. (DTC’s nominee).

You may hold your interests in the global notes in the United States through DTC, either as a participant in such system or indirectly through organizations which are participants in such system. So long as DTC or its nominee is the registered owner of the global securities representing the notes, DTC or such nominee will be considered the sole owner and holder of the notes for all purposes of the notes and the indenture. Except as provided below, owners of beneficial interests in the notes will not be entitled to have the notes registered in their names, will not receive or be entitled to receive physical delivery of the notes in definitive form and will not be considered the owners or holders of the notes under the indenture, including for purposes of receiving any reports that we or the trustee deliver pursuant to the indenture. Accordingly, each person owning a beneficial interest in a note must rely on the procedures of DTC or its nominee and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, in order to exercise any rights of a holder of notes.

Unless and until we issue the notes in fully certificated form under the limited circumstances described below under the heading “— Certificated Notes”:

- you will not be entitled to receive physical delivery of a certificate representing your interest in the notes;
- all references in this prospectus supplement or in the accompanying prospectus to actions by holders will refer to actions taken by DTC upon instructions from its direct participants; and
- all references in this prospectus supplement or the accompanying prospectus to payments and notices to holders will refer to payments and notices to DTC or Cede & Co., as the registered holder of the notes, for distribution to you in accordance with DTC procedures.

The Depository Trust Company

DTC will act as securities depository for the notes. The notes will be issued as fully registered notes registered in the name of Cede & Co. DTC is:

- a limited-purpose trust company organized under the New York Banking Law;
- a “banking organization” under the New York Banking Law;
- a member of the Federal Reserve System;
- a “clearing corporation” under the New York Uniform Commercial Code; and
- a “clearing agency” registered under the provision of Section 17A of the Securities Exchange Act.

DTC holds securities that its direct participants deposit with DTC. DTC also facilitates the settlement among direct participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in direct participants’ accounts, thereby eliminating the need for physical movement of securities certificates.

Direct participants of DTC include securities brokers and dealers (including underwriters), banks, trust companies, clearing corporations, and certain other organizations. DTC is owned by a number of its direct participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc. Indirect participants of DTC, such as securities brokers and dealers, banks and trust companies, can also access the DTC system if they maintain a custodial relationship with a direct participant.

If you are not a direct participant or an indirect participant and you wish to purchase, sell or otherwise transfer ownership of, or other interests in, notes, you must do so through a direct participant or an indirect participant. DTC agrees with and represents to DTC participants that it will administer its book-entry system in accordance with its rules and by-laws and requirements of law. The Securities and Exchange Commission has on file a set of the rules applicable to DTC and its direct participants.

Purchasers of notes under DTC’s system must be made by or through direct participants, which will receive a credit for the notes on DTC’s records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct participants and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the participants or indirect participants through which such beneficial owners entered into the transaction. Transfers of ownership interests in the notes are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners will not receive physical delivery of certificates representing their ownership interests in notes, except as provided below in “— Certificated Notes.”

To facilitate subsequent transfers, all notes deposited with DTC are registered in the name of DTC’s nominee, Cede & Co. The deposit of notes with DTC and their registration in the name of Cede & Co. has no effect on beneficial ownership. DTC has no knowledge of the actual beneficial owners of the notes. DTC’s records reflect only the identity of the direct participants to whose accounts such notes are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Book-Entry Format

Under the book-entry format, the trustee will pay interest or principal payments to Cede & Co., as nominee of DTC. DTC will forward the payment to the direct participants, who will then forward the payment to the indirect participants or to you as the beneficial owner. You may experience some delay in receiving your payments under this system.

DTC is required to make book-entry transfers on behalf of its direct participants and is required to receive and transmit payments of principal, premium, if any, and interest on the notes. Any direct participant or indirect participant with which you have an account is similarly required to make book-entry transfers and to receive and transmit payments with respect to notes on your behalf. We and the trustee have no responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The trustee will not recognize you as a holder under the indenture, and you can only exercise the rights of a holder indirectly through DTC and its direct participants. DTC has advised us that it will only take action regarding a note if one or more of the direct participants to whom the note is credited direct DTC to take such action. DTC can only act on behalf of its direct participants. Your ability to pledge notes to nondirect participants, and to take other actions, may be limited because you will not possess a physical certificate that represents your notes.

Certificated Notes

Unless and until they are exchanged, in whole or in part, for notes in definitive form in accordance with the terms of the notes, the notes may not be transferred except as a whole by DTC to a nominee of DTC; as a whole by a nominee of DTC to DTC or another nominee of DTC; or as a whole by DTC or nominee of DTC to a successor of DTC or a nominee of such successor.

We will issue notes to you or your nominees, in fully certificated registered form, rather than to DTC or its nominees, only if:

- we advise the trustee in writing that DTC is no longer willing or able to discharge its responsibilities properly or that DTC is no longer a registered clearing agency under the Securities Exchange Act, and the trustee or we are unable to locate a qualified successor within 90 days;
- an event of default has occurred and is continuing under the indenture; or
- we, at our option, elect to terminate use of the book-entry system through DTC.

If any of the three above events occurs, DTC is required to notify all direct participants that notes in fully certificated registered form are available through DTC. DTC will then surrender the global note representing the notes along with instructions for re-registration. The trustee will re-issue the notes in full certificated registered form and will recognize the registered holders of the certificated notes as holders under the indenture.

UNDERWRITING

We have entered into an underwriting agreement and terms agreement with respect to the notes with the underwriters listed below. Subject to certain conditions, the underwriters have agreed to purchase the principal amount of notes indicated in the following table:

Underwriters	Principal Amount of Notes
Merrill Lynch, Pierce, Fenner & Smith Incorporated	\$ 55,000,000
Morgan Stanley & Co. Incorporated	35,000,000
Salomon Smith Barney Inc.	10,000,000
Total	<u>\$ 100,000,000</u>

Notes sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospect supplement. If all the notes are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms.

The notes are a new issue of securities with no established trading market. We have been advised by the underwriters that the underwriters intend to make a market in the notes, but they are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

In connection with the offering, the underwriters may purchase and sell the notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of greater aggregate principal amount of notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in process.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

We estimate that the total expenses of the offering, excluding underwriter discounts and commissions, will be approximately \$50,000. We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. Incorporated and Salomon Smith Barney Inc. and their affiliates have in the past and may in the future provide us with financial advisory and other services.

VALIDITY OF THE NOTES

The validity of the notes will be passed upon for us by King & Spalding LLP, New York, New York. Certain legal matters will be passed upon for the underwriters by Gibson, Dunn & Crutcher LLP, New York, New York.

RATIO OF EARNINGS TO FIXED CHARGES

	Year Ended December 31,					Nine Months Ended September 30,

- (1) For purposes of calculating the ratio of earnings to fixed charges, earnings is defined as income before income taxes and fixed charges (excluding capitalized interest). Fixed charges include interest (whether capitalized or expensed), amortization of debt expense and any discount or premium relating to any indebtedness (whether capitalized or expensed) and the portion of rent expense considered to represent interest.

USE OF PROCEEDS

Unless otherwise stated in a prospectus supplement, the net proceeds from the sale of the debt securities offered under this prospectus and a related prospectus supplement will be used for general corporate purposes, including UPS’s working capital needs, the funding of investments in, or extensions of credit to, our operating subsidiaries, possible acquisitions and investments in joint ventures and the possible

reduction of outstanding indebtedness. Pending any of these uses, we may temporarily invest the net proceeds in investment grade securities.

DESCRIPTION OF DEBT SECURITIES

The debt securities are to be issued under an indenture dated as of January 26, 1999, between UPS of America and Citibank, N.A., which acts as trustee, which indenture we assumed pursuant to a supplemental indenture. In this prospectus “indenture” will refer to the indenture and the supplemental indenture. A copy of the indenture is filed as an exhibit to the registration statement of which this prospectus is a part. The indenture and its associated documents contain the full legal text of the matters described in this section. The indenture and the debt securities are governed by New York law. A copy of the indenture may be obtained from us as described under “Where You Can Find More Information” on page 2.

This section summarizes the material terms of the debt securities that may be issued under this debt program. Because this section is a summary, it does not describe every aspect of the debt securities. This summary is subject to and qualified in its entirety by reference to all the provisions of the indenture, including definitions of terms used in the indenture. In this summary, we describe the meaning for only the more important terms. We also include references in parentheses to sections of the indenture. Whenever we refer to particular sections or defined terms of the indenture in this prospectus or in a prospectus supplement, the sections or defined terms are incorporated by reference in this prospectus or in the prospectus supplement. You must look to the indenture for the most complete description of what we describe in summary form in this prospectus.

This summary also is subject to and qualified by reference to the description of the particular terms of the debt securities described in the prospectus supplement. The prospectus supplement relating to each series of debt securities will be attached to the front of this prospectus. There also may be a further prospectus supplement, known as a pricing supplement, which contains the precise terms of debt securities you are offered.

The term “Securities,” as used under this caption, refers to all Securities issued under the indenture, including the debt securities.

General

The indenture provides that Securities in separate series may be issued from time to time, without limitation as to aggregate principal amount. We may specify a maximum aggregate principal amount for the Securities of any series. (Section 3.01) The Securities are to have terms and provisions that are not inconsistent with the indenture, including terms as to maturity, principal and interest as we may determine. The Securities will be unsecured obligations and will rank on a parity with all of our other unsecured and unsubordinated indebtedness. The provisions of the indenture described below provide us with the ability, in addition to the ability to issue Securities with terms different from those of Securities previously issued, to “reopen” a previous issue of a series of Securities and issue additional Securities of that series.

The applicable prospectus supplement will set forth the price or prices at which the Securities to be offered will be issued and will describe the following terms, as applicable, of the Securities:

- (a) the title of the Securities of the series;
- (b) any limit upon the aggregate principal amount of the Securities of the series that may be authenticated and delivered under the indenture;
- (c) the person or entity to whom any interest on the Securities of the series will be payable;
- (d) the date or dates on which the principal, premium, if any, or other form or type of consideration to be paid upon maturity on any Securities of the series will be payable;

(e) the rate or rates at which any Securities of the series will bear interest, if any, or any method by which the rate or rates will be determined, the date or dates from which any interest will accrue, the interest payment dates on which any interest will be payable and the record date for any interest payable on any interest payment date;

(f) the place or places where the principal, premium, if any, interest or other form or type of consideration to be paid upon maturity on any Securities of the series will be payable;

(g) the period or periods within which, the price or prices at which and the terms and conditions upon which any Securities of the series may be redeemed, in whole or in part, at our option and, if other than by a resolution by our Board of Directors or its Executive Committee, the manner in which any election by us to redeem the Securities will be evidenced;

(h) our obligation, if any, to redeem or purchase any Securities of the series pursuant to any sinking fund or analogous provisions or at the option of the Holder of the Securities, and the period or periods within which, the price or prices at which and the terms and conditions upon which any Securities of the series will be redeemed or purchased, in whole or in part, pursuant to any obligation and any provisions for the remarketing of any Securities;

(i) if other than denominations of \$1,000 and any integral multiple of \$1,000, the denominations in which any Securities of the series will be issuable;

(j) if the amount of principal of or any premium or interest on any Securities of the series may be determined with reference to an index, formula or other method, the manner in which these amounts will be determined;

(k) if other than the currency of the United States of America, the currency, currencies or composite currencies in which the principal of or any premium or interest on any Securities of the series will be payable and the manner of determining the equivalent in the currency of the United States of America for any purpose;

(l) if the principal of or any premium or interest on any Securities of the series is to be payable, at our election or the election of the Holder of the Securities, in one or more currencies or composite currencies other than that or those in which Securities are stated to be payable, the currency, currencies or composite currencies in which the principal of or interest on Securities as to which an election is made will be payable, the periods within which and the terms and conditions upon which an election is to be made and the amount so payable, or the manner in which the amount will be determined;

(m) if other than the entire principal amount of any Securities, the portion of the principal amount of the Securities of the series that will be payable upon declaration of acceleration of the maturity of the Securities;

(n) if the principal amount payable at the stated maturity of any Securities of the series will not be determinable as of any one or more dates prior to the stated maturity, the amount that will be deemed to be the principal amount of the Securities as of any such date for any purpose under the Securities or under this prospectus, including the principal amount of the Securities that will be due and payable upon any maturity other than the stated maturity or that will be deemed to be outstanding as of any date prior to the stated maturity;

(o) if applicable, that the Securities of the series, in whole or any specified part, will be defeasible and that some of our covenants will be defeasible and, if other than by a resolution of our Board of Directors or Executive Committee, the manner in which any election by us to defease any Securities or covenants will be evidenced;

(p) if applicable, that any Securities of the series will be issuable in whole or in part in the form of one or more global securities and, in that case, the respective depositories for the global securities, the form of any legend or legends that will be borne by any global security and any

circumstances in which any global security may be exchanged in whole or in part for Securities registered, and any transfer of a global security in whole or in part may be registered, in the name or names of persons or entities other than a depository for a global security;

(q) whether, and the terms and conditions relating to when, we may satisfy some of our obligations with respect to the Securities with regard to payment upon maturity, or any redemption or required repurchase or in connection with any exchange provisions by delivering to the holders principal, premium, if any, interest or other form or type of consideration to be paid upon maturity on any Securities;

(r) any addition to or change in the events of default that apply to any Securities of the series and any change in the right of the trustee or the requisite holders of the Securities to declare the principal amount due and payable;

(s) any addition to or change in the covenants that apply to Securities of the series;

(t) the terms and conditions pursuant to which the Securities may be converted into or exchanged for other of our debt securities;

(u) terms with respect to book-entry procedures; and

(v) any other terms of the Securities of the series, which terms will not otherwise be inconsistent with the indenture and as authorized and approved by us.

Securities, including original issue discount securities, may be sold at a substantial discount below their principal amount. We may describe special United States federal income tax considerations, if any, applicable to Securities sold at an original issue discount in the applicable prospectus supplement. In addition, we may describe special United States federal income tax or other considerations, if any, applicable to any Securities that are denominated in a currency or currency unit other than United States dollars in the applicable prospectus supplement.

Form, Exchange and Transfer

The Securities of each series will be issuable only in registered form, without coupons and, unless we specify otherwise in the applicable prospectus supplement, only in denominations of \$1,000 and integral multiples of \$1,000. (Section 3.02)

At the option of the Holder, subject to the terms of the indenture and the limitations applicable to Global Securities, Securities of each series will be exchangeable for other Securities of the same series of any authorized denomination and of a like tenor and aggregate principal amount. (Section 3.05)

Subject to the terms of the indenture and the limitations applicable to Global Securities, Securities may be presented for exchange as provided above or for registration of transfer (duly endorsed or with the form of transfer endorsed thereon duly executed) at the office of the Security Registrar or at the office of any transfer agent we designate for such purpose. No service charge will be made for any registration of transfer or exchange of Securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith. Transfer or exchange will be effected by the Security Registrar or the transfer agent, as the case may be, being satisfied with the documents of title and identity of the person making the request. We have appointed the trustee as Security Registrar. (Section 3.05) We may at any time designate additional transfer agents or rescind the designation of any transfer agent or approve a change in the office through which any transfer agent acts, except that we will be required to maintain a transfer agent in each Place of Payment for the Securities of each series. (Section 10.02)

If the Securities of any series (or of any series and specified tenor) are to be redeemed in part, we will not be required to:

- issue, register the transfer of or exchange any Security of that series (or of that series and specified tenor, as the case may be) during a period beginning at the opening of business

15 days before the day of mailing of a notice of redemption of any Security that may be selected for redemption and ending at the close of business on the day of such mailing or

- register the transfer of or exchange any Security so selected for redemption, in whole or in part, except the unredeemed portion of any Security being redeemed in part. (Section 3.05)

Global Securities

Some or all of the Securities of any series may be represented, in whole or in part, by one or more Global Securities that have an aggregate principal amount equal to that of the Securities represented thereby. Each Global Security will be registered in the name of The Depository Trust Company, New York, New York or its nominee identified in the applicable prospectus supplement, will be deposited with DTC or its nominee or a custodian and will bear a legend regarding the restrictions on exchanges and registration of transfer thereof referred to below and any other matters as may be provided for pursuant to the indenture. Unless otherwise described in the prospectus supplement relating to each series, the Securities of each series offered, sold or delivered in the United States will be issued in the form of one or more fully registered global notes that will be deposited with, or on behalf of, DTC and registered in the name of the DTC nominee.

DTC has advised us as follows:

- it is a limited-purpose trust company which was created to hold securities for its participating organizations and to facilitate the clearance and settlement of securities transactions between DTC participants in securities through electronic book-entry changes in accounts of DTC participants;
- DTC participants include securities brokers and dealers (including the underwriters for the Securities), banks and trust companies, clearing corporations and certain other organizations;
- access to DTC's system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly ("indirect participants"); and
- persons who are not DTC participants may beneficially own securities held by DTC only through DTC participants or indirect participants.

Unless otherwise provided in the applicable prospectus supplement, payments of principal, any premium or interest on or related to the Securities of each series registered in the name of DTC's nominee will be made by the trustee to DTC's nominee as the registered owner of the Global Security. Under the terms of the indenture, UPS and the trustee will treat the persons in whose names the Securities of each series are registered as the owners of the Securities for the purpose of receiving payment of principal, any premium or interest on the Securities and for all other purposes. Therefore, neither we, the trustee nor the Paying Agent has any direct responsibility or liability for the payment of the principal, any premium or interest on the Securities to owners of beneficial interests in a Global Security. DTC has advised us and the trustee that its present practice is, upon receipt of any payment of principal, any premium, or interest, to immediately credit the accounts of the DTC participants with the payment in amounts proportionate to their respective holdings in principal amount of beneficial interests in such Global Security as shown on DTC's records.

Notwithstanding any provision of the indenture or any Security described in this prospectus, no Global Security may be exchanged in whole or in part for Securities registered, and no transfer of a Global Security in whole or in part may be registered, in the name of any Person other than DTC or any nominee of DTC unless:

- DTC has notified us that it is unwilling or unable to continue as depository for a Global Security or has ceased to be qualified to act as depository as required by the indenture;

- there shall have occurred and be continuing an Event of Default with respect to the Securities represented by a Global Security; or
- there shall exist circumstances, if any, in addition to or in lieu of those described above as may be described in the applicable prospectus supplement.

All securities issued in exchange for a Global Security or any portion of a Global Security will be registered in the names as DTC may direct. (Sections 2.04 and 3.05)

As long as DTC, or its nominee, is the registered Holder of a Global Security, DTC or its nominee, as the case may be, will be considered the sole owner and Holder of the Global Security and the Securities represented thereby for all purposes under the Securities and the indenture. Except in the limited circumstances referred to above, owners of beneficial interests in a Global Security will not be entitled to have such Global Security or any Securities represented thereby registered in their names, will not receive or be entitled to receive physical delivery of certificated Securities in exchange therefor and will not be considered to be the owners or Holders of such Global Security or any Securities represented thereby for any purpose under the Securities or the indenture. All payments and deliveries of principal of and any premium, Maturity Consideration and interest on a Global Security will be made to DTC or its nominee, as the case may be, as the Holder thereof. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of such securities in definitive form. These laws may impair the ability to transfer beneficial interests in a Global Security.

Ownership of beneficial interests in a Global Security will be limited to DTC participants and to persons that may hold beneficial interests through DTC participants. In connection with the issuance of any Global Security, DTC will credit, on its book entry registration and transfer system, the respective principal amounts of Securities represented by the Global Security to the accounts of its DTC participants. Ownership of beneficial interests in a Global Security will be shown only on, and the transfer of those ownership interests will be effected only through, records maintained by DTC, with respect to DTC participants' interests, or any DTC participant, with respect to interests of persons held by DTC participants on their behalf. Payments, transfers, exchanges and other matters relating to beneficial interests in a Global Security may be subject to various policies and procedures adopted by DTC from time to time. None of us, the trustee or any agent of us or the trustee will have any responsibility or liability for any aspect of DTC's or any DTC participant's records relating to, or for payments made on account of, beneficial interests in a Global Security, or for maintaining, supervising or reviewing any records relating to such beneficial interests.

Secondary trading in notes and debentures of corporate issuers is generally settled in clearinghouse or next-day funds. In contrast, beneficial interests in a Global Security will trade in DTC's same-day funds settlement system, in which secondary market trading activity in those beneficial interests would be required by DTC to settle in immediately available funds. There is no assurance as to the effect, if any, that settlement in immediately available funds would have on trading activity in such beneficial interests. Also, settlement for purchases of beneficial interests in a Global Security upon the original issuance thereof may be required to be made in immediately available funds.

Payment and Paying Agents

Unless otherwise indicated in the applicable prospectus supplement, payment of interest on a Security on any Interest Payment Date will be made to the Person in whose name the Security, or one or more Predecessor Securities, is registered at the close of business on the Regular Record Date for payment of interest. (Section 3.07)

Unless otherwise indicated in the applicable prospectus supplement, principal of and any premium, Maturity Consideration and interest on the Securities of a particular series (other than a Global Security) will be payable or deliverable at the office of the Paying Agent or Paying Agents as we may designate for that purpose from time to time, except that at our option payment of any interest may be made by check mailed to the address of the Person entitled to the payment as that address appears in the Security

Register. Unless otherwise indicated in the applicable prospectus supplement, the corporate trust office of the trustee in The City of New York will be designated as our sole Paying Agent for payments and deliveries with respect to Securities of each series. Any other Paying Agents initially designated for the Securities of a particular series will be named in the applicable prospectus supplement. We may at any time designate additional Paying Agents or rescind the designation of any Paying Agent or approve a change in the office through which any Paying Agent acts, except that we will be required to maintain a Paying Agent in each Place of Payment for the Securities of a particular series. (Section 10.02)

All consideration paid or delivered to a Paying Agent for the payment or delivery of the principal of or any premium, Maturity Consideration or interest on any Security that remain unclaimed at the end of two years after such principal, premium, Maturity Consideration or interest has become due and payable or deliverable will be repaid to us, and the Holder of the Security thereafter, as an unsecured general creditor, may look only to us for payment or delivery thereof. (Section 10.03)

Covenants

Limitation on Secured Indebtedness

We will not create, assume, incur or guarantee, and will not permit any Restricted Subsidiary to create, assume, incur or guarantee, any Secured Indebtedness without making provision whereby all the Securities shall be secured equally and ratably with, or prior to, any Secured Indebtedness, together with, if we shall so determine, any other Indebtedness of us or any Restricted Subsidiary then existing or thereafter created that is not subordinate to the Securities, so long as the Secured Indebtedness shall be outstanding unless the Secured Indebtedness, when added to:

- the aggregate amount of all Secured Indebtedness then outstanding (not including in this computation Secured Indebtedness if the Securities are secured equally and ratably with (or prior to) any Secured Indebtedness and further not including in this computation any Secured Indebtedness that is concurrently being retired) and
- the aggregate amount of all Attributable Debt then outstanding pursuant to Sale and Leaseback Transactions entered into by us after January 26, 1999, or entered into by a Restricted Subsidiary after January 26, 1999 or, if later, the date on which it became a Restricted Subsidiary (not including in this computation any Attributable Debt that is concurrently being retired)

would not exceed 10% of Consolidated Net Tangible Assets. (Section 10.06)

Limitation on Sale and Lease Back Transactions

We will not, and will not permit any Restricted Subsidiary to, enter into any Sale and Leaseback Transaction unless the sum of:

- the Attributable Debt to be outstanding pursuant to any Sale and Leaseback Transaction;
- all Attributable Debt then outstanding pursuant to all other Sale and Leaseback Transactions entered into by us after January 26, 1999, or entered into by a Restricted Subsidiary after January 26, 1999 or, if later, the date on which it became a Restricted Subsidiary; and
- the aggregate of all Secured Indebtedness then outstanding (not including in this computation Secured Indebtedness if the Securities are secured equally and ratably with (or prior to) such Secured Indebtedness)

would not exceed 10% of Consolidated Net Tangible Assets, or an amount equal to the greater of:

- the net proceeds to us or the Restricted Subsidiary of the sale of the Principal Property sold and leased back pursuant to any Sale and Leaseback Transaction; and

- the amount of *Attributable Debt* to be outstanding pursuant to any Sale and Leaseback Transaction

is applied to the retirement of Funded Debt of us or any Restricted Subsidiaries (other than Funded Debt that is subordinate to the Securities or is owing to us or any Restricted Subsidiaries) within 180 days after the consummation of any Sale and Leaseback Transaction. (Section 10.07)

Consolidation, Merger and Sale of Assets

We may not consolidate with or merge with or into any other Person or convey, transfer or lease all or substantially all of our properties and assets substantially as an entirety to any Person unless:

- (a) either we are the continuing corporation or the Person, if other than us, formed by any consolidation or into which we are merged or the Person that acquires by conveyance, transfer, or lease, the properties and assets of us substantially as an entirety shall be a corporation, partnership or trust, shall be organized and validly existing under the laws of the United States of America, any State thereof or the District of Columbia and shall expressly assume, in form satisfactory to the trustee, the due and punctual payment or delivery of the Maturity Consideration and interest on all the Securities and the performance of every covenant in the indenture on the part of us to be performed or observed;
- (b) immediately after giving effect to such transaction, and treating any Indebtedness that becomes an obligation of us or any Subsidiary in connection with or as a result of such transaction as having been incurred at the time of such transaction, no Event of Default, and no event that, after notice or lapse of time or both, would become an Event of Default, shall have occurred and be continuing; and
- (c) we or such Person has delivered to the trustee an Officer's Certificate and an opinion of counsel, as to which opinion, counsel may rely on the Officer's Certificate as to factual matters, each stating that such consolidation, merger, conveyance, transfer or lease comply with the foregoing and that all conditions precedent provided for in the indenture or relating to the transaction have been complied with.

Upon any consolidation or merger or any conveyance, transfer or lease of the properties and assets of us substantially as an entirety, the successor Person formed by a consolidation, or into which we are merged or the successor Person to which any conveyance, transfer or lease is made, shall succeed to, and be substituted for, and may exercise every right and power of us under the Securities and the indenture with the same effect as if that successor had been named as us therein; and thereafter, except in the case of a lease, we shall be discharged from all obligations and covenants under the indenture and the Securities. (Sections 8.01 and 8.02)

Definitions

"Attributable Debt" means, as of the date of its determination, the present value (discounted semiannually at an interest rate of 7.0% per annum) of the obligation of a lessee for rental payments pursuant to any Sale and Leaseback Transaction (reduced by the amount of the rental obligations of any sublessee of all or part of the same property) during the remaining term of such Sale and Leaseback Transaction (including any period for which the lease relating thereto has been extended), such rental payments not to include amounts payable by the lessee for maintenance and repairs, insurance, taxes, assessments and similar charges and for contingent rents (such as those based on sales). In the case of any Sale and Leaseback Transaction in which the lease is terminable by the lessee upon the payment of a penalty, the rental payments shall be considered for purposes of this definition to be the lesser of:

- (1) the rental payments to be paid under such Sale and Leaseback Transaction until the first date (after the date of such determination) upon which it may be so terminated plus the then applicable penalty upon such termination and

(2) the rental payments required to be paid during the remaining term of any Sale and Leaseback Transaction (assuming such termination provision is not exercised).

“*Consolidated Net Tangible Assets*” means at any date, the total assets appearing on the most recently prepared consolidated balance sheet of us and the Subsidiaries as of the end of our fiscal quarter, prepared in accordance with generally accepted accounting principles, less all current liabilities as shown on the balance sheet and Intangible Assets.

(9) Indebtedness secured by Liens on aircraft, airframes or aircraft engines, aeronautic equipment or computers and electronic data processing equipment; and

(10) The replacement, extension or renewal, or successive replacements, extensions or renewals, of any Indebtedness, in whole or in part, excluded from the definition of "Secured Indebtedness" by subparagraphs (1) through (9) above; provided, however, that no Lien securing, or conditional sale or title retention agreement with respect to, the Indebtedness will extend to or cover any Principal Property or any Restricted Securities, other than the property that secured the Indebtedness so replaced, extended or renewed, plus improvements on or to any such Principal Property, provided further, however, that to the extent that replacement, extension or renewal increases the principal amount of Indebtedness secured by the Lien or is in a principal amount in excess of the principal amount of Indebtedness excluded from the definition of "Secured Indebtedness" by subparagraphs (1) through (9) above, the amount of the increase or excess will be considered to be "Secured Indebtedness."

In no event shall the foregoing provisions be interpreted to mean or their operation to cause the same Indebtedness to be included more than once in the calculation of "Secured Indebtedness" as that term is used in the indenture.

"*Subsidiary*" means any corporation of which, at the time of determination, we and/or one or more Subsidiaries owns or controls directly or indirectly more than 50% of the shares of voting stock.

"*Wholly owned*," when used with reference to a Subsidiary, means a Subsidiary of which all of the outstanding capital stock is owned by us or by one or more wholly owned Subsidiaries.

"*Voting Stock*," when used with reference to a Subsidiary, means stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of the Subsidiary provided that, for the purposes of the indenture, stock that carries only the right to vote conditionally on the happening of an event shall not be considered voting stock whether or not such event shall have happened.

Events of Default

The indenture defines an Event of Default with respect to any series of Securities as being any one of the following events:

- (a) default in the payment of any interest on the Securities of that series when due, and the continuance of that default for a period of 30 days;
- (b) default in the delivery or payment of the Maturity Consideration on the Securities of that series at the date on which the principal becomes due and payable as provided in the Security or in the indenture, whether at the Stated Maturity or by declaration of acceleration, call for redemption or otherwise;
- (c) default in the deposit of any sinking fund payment, when and as due on the Securities of that series;
- (d) default in the performance or breach of any of our covenants or warranties under the indenture (other than a covenant or warranty a default in performance or breach of which is specifically dealt with in the indenture) and the continuance of the default or breach for a period of 60 days after written notice as provided in the indenture; or
- (e) certain events involving our bankruptcy, insolvency or reorganization. (Section 5.01)

The indenture provides that if an Event of Default specified therein shall occur and be continuing with respect to the Securities of any series, other than an Event of Default involving bankruptcy, insolvency or reorganization, either the trustee or the Holders of 25% in principal amount, or if the Securities are not payable at Maturity for a fixed principal amount, 25% of the aggregate issue price, of the Outstanding Securities of that series, each series acting as a separate class, may declare the principal of the Securities of that series, or an other amount or property, as may be provided for in the Securities of that series, to be due and payable. If an Event of Default described in clause (e) above with respect to the Securities of any series at the time outstanding shall occur, the principal amount of all the Securities of that series, or such other amount or property, as may be provided for in the Securities of that series, (or, in the case of any Original Issue Discount Security, such specified amount) will automatically, and without any action by the trustee or any Holder, become immediately due and payable. (Section 5.02). The Holders of not less than a majority in aggregate principal amount of the Securities of a series may, on behalf of all Holders of Securities of the series, waive any past default under the indenture with respect to the Securities of the series, except a default in the delivery or payment of the Maturity Consideration or interest on any Security of the series, and default in respect of a covenant or provision of the indenture that cannot be modified or amended without the consent of the Holder of each Outstanding Security of the affected series. (Section 5.13)

Subject to the provisions of the indenture relating to the duties of the trustee in case an Event of Default shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or discretion of any of the Holders, unless the Holders shall have offered to the trustee reasonable indemnity. (Section 6.03) Subject to such provisions for the indemnification of the trustee, the Holders of a majority in aggregate principal amount of the Outstanding Securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the Securities of that series. (Section 5.12)

No Holder of a Security of any series will have any right to institute any proceeding with respect to the indenture, or for the appointment of a receiver or a trustee, or for any other remedy under the indenture, unless

- (1) the Holder has previously given to the trustee written notice of a continuing Event of Default with respect to the Securities of that series,

(2) the Holders of at least 25% in aggregate principal amount, or if the Securities are not payable at Maturity for a fixed principal amount, the aggregate issue price of the Outstanding Securities of that series, have made written request to the trustee to institute a proceeding as trustee,

(3) the Holder or Holders have offered to the trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request, and

(4) the trustee has failed to institute such proceeding, and has not received from the Holders of a majority in aggregate principal amount or, if the Securities are not payable at Maturity for a fixed principal amount, the aggregate issue price of the Outstanding Securities of that series, a direction inconsistent with the request, within 60 days after the notice, request and offer. (Section 5.07) However, these limitations do not apply to a suit instituted by a Holder of a Security for the enforcement of delivery or payment of the Maturity Consideration relating to, or interest on, the Security on or after the applicable due date specified in the Security. (Section 5.08)

We will be required to furnish to the trustee annually a statement by certain of our officers as to whether or not we, to our knowledge, are in default in the performance or observance of any of the terms, provisions and conditions of the indenture and, if so, specifying all known defaults. (Section 10.04)

Defeasance and Covenant Defeasance

If and to the extent indicated in the applicable prospectus supplement, we may elect, at our option at any time, to have the provisions of Section 13.02 of the indenture, relating to defeasance and discharge of indebtedness, or Section 13.03 of the indenture, relating to defeasance of certain restrictive covenants in the indenture, applied to the Securities of any series, or to any specified part of a series. (Section 13.01)

Defeasance and Discharge

The indenture provides that, upon our exercise of our option to have Section 13.02 of the indenture apply to any Securities, UPS will be deemed to have been discharged from all obligations with respect to the Securities (except for certain obligations to exchange or register the transfer of Securities, to replace stolen, lost or mutilated Securities, to maintain paying agencies and to hold moneys for payment in trust) upon the deposit in trust for the benefit of the Holders of the Securities of money or U.S. Government Obligations, or both, which, through the payment of principal and interest in respect thereof in accordance with their terms, will provide money in an amount sufficient to pay the principal of and any premium and interest on the Securities on the respective Stated Maturities in accordance with the terms of the indenture and the Securities. Defeasance or discharge may occur only if, among other things, we have delivered to the trustee an Opinion of Counsel to the effect that, we have received from, or there has been published by, the United States Internal Revenue Service a ruling, or there has been a change in tax law, in any case to the effect that Holders of the Securities will not recognize gain or loss for federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to federal income tax on the same amount, in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge were not to occur. (Sections 13.02 and 13.04)

Defeasance of Covenants

The indenture provides that, upon our exercise of our option to have Section 13.03 of the indenture apply to any Securities, we may omit to comply with certain restrictive covenants, including those described under "Covenants," any that may be described in the applicable prospectus supplement, and the occurrence of certain Events of Default, which are described above in clause (d) (with respect to restrictive covenants) and under "Events of Default" and any that may be described in the applicable prospectus supplement, will be deemed not to be or result in an Event of Default, in each case with respect to the Securities. In order to exercise its option, we will be required to deposit, in trust for the benefit of the Holders of the Securities, money or U.S. Government Obligations, or both, which, through the payment of principal and interest in respect thereof in accordance with their terms, will provide money in an amount sufficient to pay the principal of and any premium and interest on the Securities on the

respective Stated Maturities in accordance with the terms of the indenture and the Securities. We will also be required, among other things, to deliver to the trustee an Opinion of Counsel to the effect that Holders of the Securities will not recognize gain or loss for federal income tax purposes as a result of deposit and defeasance of certain obligations and will be subject to federal income tax on the same amount, in the same manner and at the same times as would have been the case if the deposit and defeasance were not to occur. In the event we exercised this option with respect to any Securities and the Securities were declared due and payable because of the occurrence of any Event of Default, the amount of money and U.S. Government Obligations so deposited in trust would be sufficient to pay amounts due on the Securities at the time of their respective Stated Maturities but may not be sufficient to pay amounts due on the Securities upon any acceleration resulting from the Event of Default. In that case, we would remain liable for the payments. (Sections 13.03 and 13.04)

Modification of the Indenture

The indenture provides that we and the trustee may, without the consent of any Holders of Securities, enter into supplemental indentures for the purposes, among other things, of adding to our covenants, adding additional Events of Default, establishing the form or terms of Securities or curing ambiguities or inconsistencies in the indenture or making other provisions, provided that any action to cure ambiguities or inconsistencies not adversely affect the interests of the Holders of any Outstanding series of Securities in any material respect. (Section 9.01)

Modifications and amendments of the indenture may be made by us and the trustee with the consent of the Holders of a majority in aggregate principal amount or, if the Securities are not payable at Maturity for a fixed principal amount, the aggregate issue price, of the Outstanding Securities of each series affected thereby, except that no modification or amendment may, without the consent of the Holder of each Outstanding Security affected thereby,

- (a) change the Stated Maturity of the Maturity Consideration or any installment of Maturity Consideration or interest on, any Security,
- (b) reduce the principal amount of or reduce the amount or change the type of Maturity Consideration or reduce the rate of interest on, or any premium payable upon the redemption of, or the amount of Maturity Consideration of an Original Issue Discount Security or any other Security that would be due and deliverable or payable upon a declaration of acceleration of the Maturity thereof upon the occurrence of an Event of Default, of any Security,
- (c) change the Place of Payment where, or the coin or currency in which, any Maturity Consideration or interest on any Security are deliverable or payable,
- (d) impair the right to institute suit for the enforcement of any payment on or with respect to any Security,
- (e) reduce the percentage in principal amount or aggregate issue price, as the case may be, of Securities of any series, the consent of whose Holders is required for modification or amendment of the indenture or for waiver of compliance with certain provisions of the indenture or for waiver of certain defaults, or
- (f) modify the requirements contained in the indenture for consent to or approval of certain matters except to increase any percentage for a consent or approval or to provide that certain other provisions cannot be modified or waived without the consent of the Holder of each Security affected thereby. (Section 9.02)

A supplemental indenture that changes or eliminates any covenant or other provision of the indenture which has been expressly included solely for the benefit of one or more particular series of Securities, or that modifies the rights of the holders of Securities of the series with respect to the covenant or other provision, shall be deemed not to affect the rights under the indenture of the Holders of Securities of any other series. (Section 9.02)

The Holders of a majority in aggregate principal amount of the Outstanding Securities of a series may, on behalf of the Holders of all the Securities of the series, waive compliance by us with certain restrictive provisions of the indenture. (Section 10.08)

Notices

Notices to Holders of Securities will be given by mail to the addresses of the Holders as they may appear in the Security Register. (Section 1.06)

Title

We the trustee and any agent of us or the trustee may treat the Person in whose name a Security is registered as the absolute owner of a Security for the purpose of making payment and for all other purposes. (Section 3.08)

Governing Law

The indenture and the Securities will be governed by, and construed in accordance with, the law of the State of New York. (Section 1.12)

Regarding the Trustee

Citibank, N.A. is the trustee under the indenture. We have other customary banking relationships with Citibank, N.A. in the ordinary course of business.

PLAN OF DISTRIBUTION

We may sell debt securities to one or more underwriters for public offering and sale by them or may sell debt securities to investors directly or through agents. Any underwriter or agent involved in the offer and sale of the debt securities (the “offered debt securities”) will be named in an applicable prospectus supplement.

Underwriters may offer and sell the offered debt securities at a fixed price or prices that may be changed, or from time to time at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. We also may offer and sell the offered debt securities in exchange for one or more of our outstanding issues of debt securities. We also may, from time to time, authorize underwriters acting as our agents to offer and sell the offered debt securities upon the terms and conditions as shall be set forth in any prospectus supplement. In connection with the sale of offered debt securities, underwriters may be deemed to have received compensation from us in the form of underwriting discounts or commissions and may also receive commissions from purchasers of offered debt securities for whom they may act as agent. Underwriters may sell offered debt securities to or through dealers, and dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions, which may be changed from time to time, from the purchasers for whom they may act as agent.

Any underwriting compensation paid by us to underwriters or agents in connection with the offering of offered debt securities, and any discounts, or concessions or commissions allowed by underwriters to participating dealers, will be set forth in an applicable prospectus supplement. Underwriters, dealers and agents participating in the distribution of the offered debt securities may be deemed to be underwriters, and any discounts and commissions received by them and any profit realized by them on resale of the offered debt securities may be deemed to be underwriting discounts and commissions, under the Securities Act. Underwriters, dealers and agents may be entitled, under agreements with us, to indemnification against and contribution toward certain civil liabilities, including liabilities under the Securities Act, and to reimbursement by us for certain expenses.

If so indicated in an applicable prospectus supplement, we will authorize dealers acting as our agents to solicit offers by certain institutions to purchase offered debt securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. Each contract will be for an amount not less than, and the aggregate principal amount of offered debt securities sold pursuant to contracts shall be not less nor more than, the respective amounts stated in the prospectus supplement. Institutions with whom contracts, when authorized, may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and other institutions, but will in all cases be subject to our approval. Contracts will not be subject to any conditions except

(1) the purchase by an institution of the offered debt securities covered by its contracts shall not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which the institution is subject, and

(2) if the offered debt securities are being sold to underwriters, we shall have sold to the underwriters the total principal amount of the offered debt securities less the principal amount thereof covered by contracts.

Agents and underwriters will have no responsibility in respect of the delivery or performance of contracts.

All offered debt securities will be a new issue of securities with no established trading market. Any underwriters to whom offered debt securities are sold by us for public offering and sale may make a market in such offered debt securities, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of or the trading markets for any offered debt securities.

Any underwriter may engage in over-allotment, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which creates a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the offered debt securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the offered debt securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the offered debt securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue those activities at any time.

Certain of the underwriters or agents and their associates may be customers of, engage in transactions with and perform services for us in the ordinary course of business.

VALIDITY OF OFFERED DEBT SECURITIES

The validity of the debt securities will be passed upon for UPS by Hunton & Williams, New York, New York. Certain legal matters in connection with the debt securities will be passed upon for the underwriters by Brown & Wood LLP, New York, New York.
